## MISCELLANEOUS REMARKS.

This Seminary, in its plan, comprises an *entire, thorough and liberal* course of School Education—beginning with the first elements, and embracing not only the languages and the appropriate Sciences, but the ornamental branches.

It includes two Departments—the Primary and the Advanced.

The Primary Department consists of pupils for the most part under twelve years of age. Here instruction will be given in all the elementary branches of English education, embracing the following

The Advanced, or Young Ladies' Department, includes all who have passed through a thorough course of elementary instruction. It is divided into three classes—JUNIOR, MIDDLE and SENIOR.

### COURSE OF STUDY.

After a vacation of one week, the second term will commence, and be followed by a vacation of three weeks, when the third term will commence, and, closing on the last Tuesday of July, will be succeeded by a vacation of six weeks.

Books used in the Seminary may be obtained in town at a fair price.

#### ADMISSION, &c.

Pupils may enter an advanced class in the Seminary, at any time when they can sustain a satisfactory examination in the previous studies, though it is very desirable that those who intend to complete the entire course should be present at the commencement of the year.

It is not expected that *all* who enter the School will pursue *strictly* the regular course of studies, yet all will be connected with some one of the regular classes.

Before any *marked* progress can be made in the *real acquisition of knowledge*, habits of *patient thought* and *study* must be formed. It is therefore important that those who enter a class should remain in it, at least, two or three consecutive terms.

#### LOCAL ADVANTAGES.

The Seminary Building, situated in one of the most beautiful as well as most healthful towns west of the Alleghany Mountains, is spacious and convenient, and in its location highly eligible, being both central and retired, well shaded, and affording ample room in its enclosures for recreation and exercise.

#### MORAL AND RELIGIOUS INFLUENCE.

There is a *daily* Biblical exercise in the Seminary, for the entire School, from which are drawn those principles and rules which apply to daily duty,—and those saving influences which regulate the conscience and the heart.

Upon influences thus drawn from the *word of God*, the entire GOVERNMENT of the Seminary is based.
